NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT  
CENTERS**

**INTRODUCTION:**

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2000 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides the demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c presents number of persons served by the three ADATCs for two populations of special interest, pregnant women and injection drug users, by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years and Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for three Alcohol & Drug Abuse Treatment Centers.

**ADMISSIONS:**

Admissions have increased from 3,728 in fiscal year 1999 to 3,816 in fiscal year 2000. This is a 2.4% increase from FY99.

## **DISCHARGES:**

There were 3,816 total direct discharges, deaths, indirect discharges, and transfer-outs in FY00. There were no deaths reported during FY00. The percent of direct discharges among total discharges was about 95%, while the percent of indirect discharges, those clients being discharged while on some type of leave placement, was about 5% in fiscal year 2000.

## **PERSONS SERVED:**

The statistic "Person Served" is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were 4,031 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2000.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 31.7, than in the remaining three regions, in which each of the ADATCs are located. The Western, North Central, and Eastern regions rates are 45.0, 64.7, and 72.5 persons served per 100,000 population respectively. The "Persons Served" rate ranges from a high of 194.3 in Granville County to a low of 5.0 in Cumberland County, with an overall statewide rate of 52.0.

The average length of stay in FY00 was 19.1 days, 1.0 day decrease from 20.1 days in FY99. The length of stay decreased at Black Mountain by 1.9 of a day and remained the same at Jones. Butner's Length of Stay increased by 0.3 of a day from 15.2 to 15.5.

About thirty one percent of persons served at the ADATCs in FY00 were women, a decrease from 33% in FY99. The percentage of nonwhite persons served at ADATCs was 38.2% in FY00, slightly increasing from 40.7% in FY99.

For fiscal year 2000, 53.8% of the persons served reported alcohol as their primary drug of choice and 30.6% reported cocaine. In FY00 alcohol as a primary drug of choice decreased by 4.9% and cocaine as a primary drug of choice decreased by 10.9% compared to FY99. Overall, 81.8% of persons served reported abusing alcohol, 54.3% cocaine, and 38.6% marijuana in FY00.
